Masks are no longer required. Individuals who wish to wear a mask or face covering may do so at their own discretion. Face coverings are provided at all campus points of entry to all individuals wanting one. Hand sanitizing stations will be located at all points of entry/exit and in convenient locations around the campus for student, staff and visitor use.

In the event that the metrics are in line with masking then the event will need to shift to a "masking required" event. Additionally, the event date could shift and an alternate date will be provided if that occurs.
